

Kyle testimonial for Sicambeni

When I think back to my time at Sicambeni, I smile that I was able to find life. I refer to my time at Sicambeni as 'life' because it was such an intense period of personal growth and exploration that the rest of my life before it seems too stagnant to count. It was an incredible and invaluable experience that I've carried with me ever since. What I learned at Sicambeni continues to enrich my new life every day."
